Short abstract:

Prof. Downey will discuss issues related to building a mission statement:

1. Have a vision that is so compelling that others will feel less of a person, if they do not part of your vision.
2. Enlist others to spread your vision because you will never be able to spread it far enough by yourself.
3. Remember that you are standing on the shoulders of everyone who came before you.
4. Realize that you will never be able to compete your vision in your lifetime.
